Vitamins to VEGA!

14th. Jan. 2025

VITAMIN

01

From the market news, on January 13, DSM - Firmenici vitamin E feed grade quote was USD20.2/KG, Zhejiang Medicine resumed vitamin E feed grade quote, quote was USD19.4/KG, and on the same day Jilin Beisha Pharmaceutical Vitamin E feed grade stopped reporting and signing.

AMINO ACID

02

According to the latest news, since January 13, 2025, the company announced that it will increase its solid methionine offer by 15%, and previously, Adissu has also adjusted the price of methionine products.

API

03

Mainstream plants for Tylomycin and Timicosain phosphate are currently offering normal prices. Before the Spring Festival, customer inquiry and procurement are active, and market inventory is limited. Recently, there are rumors that some manufacturers will limit production in 2025, it is expected that the price may be adjusted after the holiday, please pay attention to. At present, the price of wine Thai is about USD28.5/KG, and the price of Timicosin phosphate is about USD33.6/KG.

FOOD ADDITIVE

04

Recently, affected by market demand, the transaction price of food additive Acesulmi in the domestic market is stable at about 36 yuan / KG, and the price in the foreign market is about 4.5 US dollars /KG. Prices are expected to remain stable in the near future.
